Dan Boyd on Bubba

Gary Boyd on Cash

After a wonderful turnout for church several members saddled up and rode with us (approximately 15 riders). We rode East on the old highway, along the way we had a couple join us for conversation and a short ride, others traded out horses and riders along the way, we then turned North on Highway 54.

On Highway 54 an 18 wheeler passed us-- the driver just had to stop and ask us about the passel of people and all the types of horses everyone was riding. It was enjoyable to visit about our journey and we are looking forward to helping others.

We rode to 50th street where a very kind gentleman (Mr. Johnnie Johnson) put our horses up for a couple of days. Thank you Mr. Johnson.

As with all journeys we had to take a 3 day lay over to get work completed on our 3 horse slant trailer with living quarters to get it ready to live in for the next three years. I wanted to weigh the truck and trailer trying to think about the driving conditions and weight limits of some bridges we will encounter. 25,000 lbs before adding horses and people.
